

# 2010 National Forum of Digital Technology

## Education for Schools of Architecture

### Call for submissions of Academic and Professional works

In the duration of 2010 National Forum of Digital Technology Education for Schools of Architecture ( seeing *Notification of 2010 National Forum of Digital Technology Education for Schools of Architecture and Second Call for Essay Submissions* for details ) , a simultaneous exhibition, ***Omnipresent Calculations—From Architectural Creation to Construction***, will be on display featuring works of students and architects. The exhibition will extend to the Annual Meeting of the *National Council of Higher Education in Architecture* (600 persons), which will be held one week later. This exhibition will invite architecture schools and offices from home and abroad to show digital design related works. Due to the limited exhibition capacity, all selected works should not extend **five** presentation panels (portrait A0 size). Specific requirements are as follows:

Size : 840mm wide , 1200mm high

Precision : 300dpi

Format : TIFF、PSD、BMP、JPG etc

Content : Participants are free to arrange the layout of their presentation, but the independence of the content on each panel should be assured to allow convenience for exhibition arrangement. Name of the participant should appear at the lower right corner of each panel in letters no higher than 20mm.

Multimedia works are also welcomed (these exhibits will be shown by turns in videos during the exhibition).

In order to make early arrangements for the exhibition and possible publications, participants are required to submit the above-mentioned materials before July 30th 2010. Digital versions of these materials can either be sent through email or mailed to the committee on CD. Although the committee will make every effort to keep the original layout of each piece of submitted work, we reserve rights to choose and edit to meet the need of the entire exhibition. For questions and additional information, please contact the committee.
